Aedes aegypti, concomitant infections of *Brugia pahangi* and *Plasmodium gallinaceum* in, 1
AF2, effects of on *Ascaris suum* somatic musculature, 353
Age-prevalence, of *Strongyloides stercoralis* infection in Jamaica, 97
Allatostatin-like immunoreactivity, localization of in helminths, 87
Allozyme analysis, comparison of with RAPD fingerprints in 8 *Trichinella* taxa, 401
γ-Aminobutyric acid, in the nervous system of parasitic flatworms, 339
Anaemia, and *Trichuris trichiura* infection in schoolchildren, 347
Antigens, from trypanosome flagellar cytoskeleton, are used for diagnosis, 249
  of *Cryptosporidium parvum*, immunolocalization of in epithelial cells, 259
Ascaris in humans, molecular evidence of cross-infection in, 215
Ascaris microepidemiology, mitochondrial DNA in, 221
Ascaris suum, chemical studies on the immunoreactive glycolipids of, 611
  effects of AF2 on the somatic musculature of, 353
  effects of PF1 and PF2 on synaptic transmission in, 449
  histochemical mapping of NADPH diaphorase in the nervous system of, 625
  oxantel-activated single channel currents in the muscle membrane of, 437

Babesia microti, quantifying parameters in the transmission of by *Ixodes trianguliceps*, 287
Behaviour, of aging nematodes, 583
  of mice infected with *Heligmosomoides polygyrus*, 591
Brugia pahangi, concomitant infections of with *Plasmodium gallinaceum* in *Aedes aegypti*, 1

Caiman crocodilus crocodilus, Haemosporina parasites of, 513
Carbohydrates, in eggs of *Hymenolepis diminuta*, characterization of, 231
CEA 160 family, a gene family encoding *Trypanosoma cruzi* exoantigen, 61
Cercarial variations, in *Proterometra macrostoma*, 429
Channel currents, activation of by oxantel in *Ascaris suum* muscle membrane, 437
Chemical properties, of the immunoreactive glycolipids of *Ascaris suum*, 611
Chemo-orientation, role of in host finding by cercariae, 133
Chemotaxis, of *Onchocerca lienalis* microfilariae to *Simulium vittatum*, 329
Cloning and functional expression, of K^+ channel gene from *Schistosoma mansoni*, 171
Codon usage and bias, in *Schistosoma mansoni*, 53
Cognitive functions, effect of *Trichuris trichiura* infection on in children, 457
Columba livia, effects of mites and lice on the reproductive success of, 195
Coxiella burnetti, reservoir of in wild brown rats in the UK, 31
Cross-infection, in *Ascaris* infections, 215
Cryptosporidium parvum, differentiation between human and animal strains of using isoenzyme typing, 129
  immunolocalization of in epithelial cells, 259
Cyclops strenuus abyssorum, changes in metabolism and behaviour of during infection with *Diphyllobothrium* spp., 395
Cytoadherence-related motifs, homology of between Pf155/RESA and erthrocyte band 3 protein, 503

Density dependence, of the transmission of human onchocerciasis, 409
Diagnosis, of *Trypanosoma cruzi*, by polymerase chain reaction, 241
  of trypanosomiasis, using flagellar cytoskeletal antigens, 249
Diethylcarbamazine, comparison of the efficacy of with mebendazole for the treatment of human toxocariasis, 529
Diethylcarbamazine, comparison of the efficacy of with mebendazole for the treatment of human toxocariasis, 529
Diphyllobothrium spp., effects of infection by on escape response of *Cyclops strenuus abyssorum*, 395
Diploptera punctata, localization of allatostatin-like immunoreactivity in helminths, 87
DNA binding nuclear proteins, of *Schistosoma mansoni*, 155
rDNA sequences, comparison of between *Toxoplasma* and *Sarcocystis*, 521
Domestic ruminants, variablity of *Haemonchus* spp. parasites in, 483
Dynamics, of nematode infections of farmed ruminants, 493

Echinococcus multilocularis, influence of environmental conditions on the infectivity of the eggs of, 79
Echinococcus spp., molecular phylogeny of, 317
Ectoparasites, effects of on reproduction, 195
Egg antigens, of *Schistosoma mansoni* miracidia, ultrastructural immunolocalization of, 365
Egg counts, distribution of in Scottish Black face lambs following *Ostertagia circumcincta* infection, 573
Eggs, of *Hymenolepis diminuta*, characterization of the carbohydrates of, 231
Encephalitozoon intestinalis, characterization of, 277
Energy balance, effects of parasitism on, 473
Energy restriction, effects of on the growth of *Heligmosomoides polygyrus*, 599
Entomopathogenic nematodes, foraging behaviour during the infective stage of, 583
Environmental conditions, effects of in *Echinococcus multilocularis* eggs, 79
Enzymes, secretion of by adult *Necator americanus*, 555
Epidemiology of *Ascaris*, mitochondrial DNA in, 221
Epidemiology of toxocariasis, role of small mammals in, 187
Epithelium, immunolocalization of *Cryptosporidium parvum* antigens in, 259
Erythrocyte band 3 protein, homology of with Pf 155/RESA antigen, 503
Escape responses, effect of *Diphyllobothrium* spp. infection on, in *Cyclops strenuus abyssorum*, 395
Exoantigen, of *Trypanosoma cruzi*, 61

Faecal nematode egg counts, distribution of in Scottish Blackface lambs, 573
FaRP, immunoreactivity of in *Fasciola hepatica* and *Schistosoma* spp., 371
Fasciola hepatica, neuropeptide F and FaRP immunoreactivities in, 371
Fecundity, reduction of induced by *Hymenolepis diminuta*, 565
Feeding behaviour, of *Glossina palidipes* on *Trypanosoma*-infected oxen, 297
Finding, of snail hosts by echinostome cercariae, 133
Flagellar cytoskeletal antigens, use of in diagnosis of trypanosomiasis, 249
F-10 nuclear binding proteins, structural and functional features of in *Schistosoma mansoni*, 155
Foraging behaviour, changes in during the infective stage of entomopathogenic nematodes, 583
Foraging, host cues in, 207

GABA, in the nervous system of parasitic flatworms, 339
Genomic distance, an index for measuring in *Leishmania* spp., 21
Glossina pallidipes, feeding behaviour of on *Trypanosoma*-infected oxen, 297
Glucose transporter 1, immunolocalization of in *Schistosoma mansoni*, 383
Glycolipids, of *Ascaris suum*, 611

Haemonchus spp., variability of in ruminants, 483
Haemosporina, of crocodiles, 513
Helminths, localization of allatostatin-like immunoreactivity in, 87
Heligmosomoides polygyrus growth, effects of energy restriction and zinc deficiency on, 599
Heligmosomoides polygyrus, reduced spatial learning in mice infected with, 591
Histochemical mapping, of NADPH diaphorase in the nervous system of *Ascaris suum*, 625
Host cues, hierarchical order of in parasite foraging strategies, 207
Host DNA sequences, detection of in schistosomes, 163
Host-finding, by 3 species of echinostome cercaria, 133
Host–parasite models, the dynamics of nematode infections of farmed ruminants, 493
Host–parasite relationship, between *Toxoplasma* infection and mouse brain, 123
Household clustering, of *Strongyloides stercoralis* infection in Jamaica, 97
Hymenolepis diminuta, characterization of the carbohydrates of the eggs of, 231
  fecundity reduction induced by, 565

Immune response, to *Trichinella spiralis*, 71
Immunolocalization, of *Cryptosporidium parvum* in epithelial cells, 259
  of 2 egg antigens in *Schistosoma mansoni* miracidia, 365
  of glucose transporter 1 in *Schistosoma mansoni*, 383
Immunoreactive glycolipids, chemical studies on in *Ascaris suum*, 611
Immunoreactivity, to SALMFamide-like neuropeptide, in *Schistosoma mansoni*, 143
Incubation period, effect of on the severity of malaria, 7
Infectivity of *Echinococcus multilocularis* eggs, influence of environmental factors on, 79
Inoculum size, effect of on the severity of malaria, 7
Iron status, of schoolchildren with *Trichuris trichiura* infection, 347
Isoenzyme typing, use of to differentiate between human and animal strains of *Cryptosporidium parvum*, 129
Ixodes trianguliceps, quantifying parameters in the transmission of *Babesia microti* by, 287

Juvenile hormone binding proteins, of *Tenebrio molitor*, 565

Karyotype divergence, in *Leishmania*, 21

Lagopus lagopus scoticus, the energetic consequences of *Trichostrongylus tenuis* infection on, 473
Leishmania donovani – complex, detection of by PCR-SHELA, 269
Leishmania spp., karyotype divergence in, 21
Linkage disequilibrium, detection of in *Trypanosoma brucei*, 181

Major histocompatibility complex, detection of host sequences of, in schistosomes, 163
Malaria, effects of inoculum size and incubation period on the severity of, 7
Malaria parasitaemia, regulation of, 115
Malaria therapy records, analysis of data from, 7
Malnourished schoolchildren, parasitic infections in, 103
Maltose utilization, by *Trichomonas vaginalis*, 37
Mating competition, in schistosomes, 45
Mebendazole, comparison of the efficacy of with diethylcarbamazine for the treatment of human toxocariasis, 529
Microfilariae, of *Onchocerca lienalis* migrate to *Simulium vittatum* thorax by chemical guidance, 329
Mitochondrial DNA, and *Ascaris* microepidemiology, 221
Molecular evidence, for cross-infection of *Ascaris* between humans and pigs, 215
Molecular phylogeny, of the genus *Echinococcus*, 317

NADPH diaphorase, histochemical mapping of in the nervous system of *Ascaris suum*, 625
Necator americanus, characterization of proteolytic enzymes from the adult stage of, 555
Nervous system of *Ascaris suum*, histochemical mapping of NADPH diaphorase in, 625
Nervous system, of parasitic flatworms, γ-aminobutyric acid, in, 339
Neuropeptide AF2, effects of on the somatic musculature of *Ascaris suum*, 353
Neuropeptide F, immunoreactivity of in *Fasciola hepatica* and *Schistosoma* spp., 371
Neuropeptide SALMFamide, in *Schistosoma mansoni*, 143
Neuropeptides PF1 and PF2, the effects of on synaptic transmission in *Ascaris suum*, 449

Oncospheres, of *Hymenolepis diminuta*, characterization of the carbohydrates of, 231
Ostertagia circumcincta, distribution of in Scottish Black face lambs, 573
Onchocerca volvulus, larval development of in simuliid vectors, 409
Onchocerca lienalis, chemical guidance of to *Simulium vittatum*, 329
Onchocerciasis, density-dependent processes in the transmission of in humans, 409
Oxantel-activated single channel currents, in *Ascaris suum* muscle membrane, 437

Parasitic infection, in malnourished schoolchildren, 103
Parasitic flatworms, GABA in the nervous system of, 339
Parasite foraging strategies, hierarchical order of host cues in, 207
PCR detection, of *Leishmania donovani* – complex parasites, 269
Pf155/RESA antigen, homology of with erythrocyte band 3 protein, 503
pH, effect of on transformation of trypomastigotes to amastigotes, 547
Phylogenetic relationships, between *Toxoplasma* and *Sarcocystis*, 521
Plasmodium falciparum, homologous motifs in antigen Pf155/RESA of and erythrocyte band 3 protein, 503
Plasmodium gallinaceum, concomitant infections of with *Brugia pahangi* in *Aedes aegypti*, 1
Population dynamics, a statistical approach to for *Schistosoma mansoni* in man, 307
Population model, use of in the regulation of malaria parasitaemia, 115
Potassium channel gene, from *Schistosoma mansoni*, 171
Progarnia archosauriae, a blood parasite of crocodiles, 513
Proteolytic enzymes, characterization of from adult *Necator americanus*, 555
Proteinases, secretion of *in vitro* by the parasitic stages of *Teladorsagia circumcincta*, 465
Proterometra macrostoma, variations in cercarial morphology and physiology in, 429

Q fever, reservoirs of in UK wild rats, 31

RAPD analysis, use of to characterize *Trypanosoma brucei* isolated from tsetse flies, 181

RAPD fingerprints, of 8 taxa of *Trichinella*, 401
Rattus norvegicus, are reservoirs of Q fever in the UK, 31
Reclassification, of *Septata intestinalis* to *Encephalitozoon intestinalis*, 277
Recognition, of snail hosts by echinostome cercariae, 133
Reproduction, effects of ectoparasites on, 195
Rock doves, effects of ectoparasites on the reproductive success of, 195
Ruminants, the dynamics of infections in, 493

SALMFamide-like neuropeptide, immunoreactivity to in *Schistosoma mansoni*, 143
Sarcocystis, phylogenetic relationship of with *Toxoplasma*, 521
Schistosoma intercalatum, change of mate and mating competition between males of, 45
Schistosoma japonicum, detection of host DNA in, 163
Schistosoma mansoni, change of mate and mating competition between males of, 45
cloning of a voltage-gated K^+ channel gene from, 171
detection of host DNA in, 163
estimation of the life-span of in man, 307
the F-10 nuclear binding proteins of, 155
glucose transporter 1 in the basal surface syncytium of, 383
immunoreactivity in to SALMFamide-like neuropeptide, 143
patterns of codon usage and bias in, 53
Schistosoma spp., neuropeptide F and FaRP immunoreactivities in, 371
Septata intestinalis, genetic and immunological characterization of, 277
Sero-epidemiology of toxocariasis, in school children, 535
Simuliid vectors, larval development of *Onchocerca volvulus* in, 409
Simulium vittatum thorax, chemotaxis of *Onchocerca lienalis* to, 329
Small mammals, role of in the epidemiology of toxocariasis, 187
Somatic musculature, of *Ascaris suum*, effects of AF2 on, 353
Spatial learning, reduction of in mice infected with *Heligmosomoides polygyrus*, 591
Statistical approach, to schistosome population dynamics, 307
Strongyloides stercoralis, age-prevalence and household clustering of in Jamaica, 97
Synaptic transmission, effects of the nematode peptides PF1 and PF2 on in *Ascaris suum*, 449

Taxonomic revision, of some *Echinococcus* spp., 317
Tegument, glucose transporter 1 in, in *Schistosoma mansoni*, 383
Teladorsagia circumcincta, proteinases secreted by the parasitic stages of, 465
Tenebrio molitor, changes in hormone binding to the ovaries of, 565
Toxocariasis, comparative efficacy of diethylcarbamazine and mebendazole for the treatment of, 529
role of small mammals in the epidemiology of, 187
sero-epidemiology of in school children, 535
Toxoplasma infection, and small blood vessels, 123
Toxoplasma, phylogenetic relationship of with *Sarcocystis*, 521
Transformation, of trypomastigotes to amastigotes is induced by low pH, 547
Transmission, of *Babesia microti* by *Ixodes trianguliceps*, quantifying parameters in, 287
Treatment evaluation, for *Trypanosoma cruzi* infections, by use of polymerase chain reaction, 241
Treatment, of human toxocariasis, 529
Trichinella spiralis, immune response to in mice is influenced by prior vaccination and genetic factors, 71
Trichinella taxa, RAPD fingerprints of, 401
Trichomonas vaginalis, maltose utilization by, 37
Trichostrongylus tenuis, effects of infection by on energy balance and pathophysiology of red grouse, 473
Trichuris trichiura, effect of infection by on cognition in children, 457
effect of infection by on iron status in school children, 347
Trypanosoma brucei, detection of linkage disequilibrium in, 181
Trypanosoma cruzi, detection of by polymerase chain reaction, 241
Trypanosoma cruzi exoantigen, is a member of a 160 kDa gene family, 61
Trypanosoma cruzi, pH-induced transformation of trypomastigotes to amastigotes in, 547
Trypanosoma-infected oxen, feeding behaviour of tsetse flies on, 297
Trypanosomal antigens, use of in diagnosis, 249
Tsetse flies, feeding behaviour of on *Trypanosoma*-infected oxen, 297

Ultrastructural immunolocalization, of *Schistosoma mansoni* egg antigens, 365
Undernutrition, and cognitive function in children infected with *Trichuris trichiura*, 457

Vaccination efficacy, against *Trichinella spiralis* in mice, is genetically determined, 71
Variability, of sympatric *Haemonchus* spp. parasites in domestic ruminants, 483

Zinc deficiency, effects of on the growth of *Heligmosomoides polygyrus*, 599
